

## AS 666 - UNIVERSAL SOLVENT CLEANER

### GENERAL DESCRIPTION

Norchem AS 666 is a highly concentrated water based heavy duty degreaser and cleaner containing a complex blend of alkaline detergent, water dilutable solvents, emulsifying and wetting agents.

### ADVANTAGES

- Convenient liquid form for quick mixing
- Economical – can be diluted with hard or soft water
- Effectively and readily emulsifies oil and grease contaminations, resulting in an easily rinsed off mixture
- Outperforms any soap or alkaline based detergents
- Non-flammable, non-objectionable odour
- Biodegradable and completely free rinsing
- Easy to apply – by brush, mop, swab or spray
- Excellent for use in confined or enclosed areas

### TYPICAL APPLICATION

AS 666 being non-flammable is used with complete safety in refineries, gasoline plants, compressor stations, transportation companies, oil well servicing stations, mining and industrial plants for the cleaning of heavily soiled floors, machinery, heavy equipment and others.

Applications include the cleaning of light carbon deposits during engine overhaul and the degreasing of oily and greasy decks and engine rooms of rigs, barges, ships, boats, tankers. Also ideal as a high pressure cleaner and steam cleaning detergent.

### PRODUCT SPECIFICATION

Appearance	: Clear Amber liquid
Flash Point	: None
pH value	: 13 ± 0.5
Storage	: Stored in cool dry sheltered environment
Specific Gravity	: 1.05

### HANDLING PRECAUTIONS

Avoid prolong contact with chemical. Rubber gloves and goggles are recommended to be worn if prolonged usage of AS 666 is expected.

### PACKAGE

Supplied in 25 and 200 litres container.
