

## HENRY DIPLOMATIC MARINE PRODUCTS

### HATCH COVER TAPES

#### HEAVY-DUTY Hatch Cover Tapes

**RAM-NEK® (Premium)**  
**GULF SEAL® (Standard)**

**HEAVY-DUTY** Marine Tape helps make steel hatch covers weathertight under heavy sea conditions.

RAM-NEK (Premium) & GULF-SEAL (Standard) are packaged in STRIPS

- Thick adhesive compound reinforced with strong woven fiberglass mesh
- Cross-laminated, non-tear poly backing
- Designed to prevent or reduce damage resulting from metal hatch cover leaks

WIDTH/ CARTON	LENGTH/ CARTON	STRIPS/ CARTON	WEIGHT/ CARTON
4.3" (110mm)	120 ft. (36 meters)	30	42 lbs. (19 kg)
6" (150mm)	120 ft. (36 meters)	30	80 lbs. (36 kg)

**IMPORTANT:** Proper care and maintenance of your rubber packings and compression bars is still necessary. Heavy-Duty Hatch Cover Tape is not meant to replace the primary sealing system of the hatch cover.

#### MARITAPE® Hatch Cover Tape

**MEDIUM STRENGTH** Sealant Tape for use in moderate sea conditions only. Suitable for barge hatch covers, ships' hatch covers (except during heavy weather), tank covers, weather deck doors, and to protect metal pipes from cathodic and corrosion conditions.

- Sticky adhesive compound is a special blend of high performance polymers
- Cross laminated, non-tear poly backing
- Remains sticky and flexible in cold conditions

MARITAPE is packaged in ROLLS

WIDTH/CARTON	LENGTH/CARTON	ROLLS/CARTON	WEIGHT/CARTON
4" (110mm)	200 ft. (61 meters)	4	15 lbs. (7 kg)
6" (150mm)	200 ft. (61 meters)	4	23 lbs. (11 kg)

**NOTE:** All marine tapes should not be stored at extremely cold or hot temperatures. Store in warm area during cold weather, and cool area during hot weather.
