

Hand Sanitizer

DESCRIPTION

Norchem Hand Sanitizer is a 70% alcohol-based disinfectant and sanitizer for personal working in clean room, food and service industries.

Product being an alcohol-based cleaner will eliminate bacteria by causing disruptions to the cell membrane plus inactive certain enveloped viruses.

APPLICATION

- 1) Use neat and apply a small amount of the sanitizer on the hands and massage thoroughly. Product will vaporize within 15 – 20 seconds leaving behind bacterial free hands.
- 2) For hard surfaces, spray a certain amount onto the surfaces and wipe off with a clean cloth or paper wiper.

NOTE: Care should be taken when spraying on polished/varnished surfaces as the alcohol can cause blurring to such surfaces.

ADVANTAGES

- Effective against both gram negative and gram positive bacteria.
- Fast drying – allows for relatively uninterrupted production
- Non-toxic; safe to use on hands and skin

PROPERTIES

Appearance : Clear Liquid
Alcohol : 70%
Odour : Mild Solvent
pH : 6 +/- 0.5

PRECAUTIONS

Avoid contact with eyes. If contacted, open eyelids and flush with plenty of water. Skin irritation is not an expected route of exposure. If irritation occurs, rinse with plenty amount of water. If swallowed, rinse mouth at once and drink large amount of water. Do not induce vomiting.
