

Sanitizing Disinfectant WB

DESCRIPTION

Norchem Sanitizing Disinfectant WB is a non-alcohol disinfectant created to sanitize and disinfect all types of hard and soft surfaces inclusive of fabric and equipment. Excellent for use in homes, clean rooms, hospitals, transport, food and service industries.

Product will eliminate bacteria by causing disruptions to the cell membrane plus inactive certain enveloped viruses.

ADVANTAGES

- Effective against both gram negative and gram positive bacteria.
- Non-toxic and Non-Flammable
- Biodegradable and non-corrosive
- Safe on hands and skin
- Kills 99.99% bacteria

APPLICATION

- 1) Spray or apply a certain amount onto the surfaces to be disinfected and leave to air dry or wipe off with a clean cloth or paper tissue. Alternatively, wet a clean cloth or towel with disinfectant and wipe on surfaces and allow to air dry leaving a clean and bacteria free surface.
- 2) Suitable to be used as a hand sanitizer. Rub a small amount on both hands and leave to dry
