

SCANA PAPER PRODUCTS

For the past 30 years, industrial wiping paper products have been widely used by all industries due to their numerous advantages over conventional rags. These companies have been enjoying the benefits of specially developed paper wipers, which are more economical, convenient, consistent and reliable than old fashioned rags, garment waste and other traditional wiping materials.

Realizing the potential market for paper wipers, Goldcrest managed to secure the co-operation of several paper mills and converters in Europe to produce a variety of high-quality wiping tissues and this partnership has been going strong and successful in the last two decades.

In order to meet the ever-increasing demand for higher quality and more economical paper wiping materials, these paper manufacturers have acquired new converting machines with the latest DESL (*Double Embossing Synchronized Lamination*) technology to produce 2 & 3 Ply micro-embossed glued paper wipers, which are stronger when wet or dry, high in absorbency, cleans better and most importantly reduce cost. These include specially manufactured rolls of various qualities and sizes in pure, mixed and recycled cellulose to service both the industrial and institutional industries.

Due to their virtually lint-free, higher absorbency capacity and stronger wet strength characteristics; more industries are switching to these products for their cleaning needs, thus contributing to the eventual demise of traditional wiping material.

Therefore, for your entire requirement from the simplest task of drying the hands to the most demanding task of absorbing viscous liquids, delicate cleaning and polishing of highly sensitive parts and equipments, these products will be the ultimate solution.

A) Purawipe – Hygiene & Industrial Rolls

This range of 100% pure cellulose tissues possess good wet strength and high absorbency and virtually lint-free and are suitable for a variety of applications. Products effectively clean and remove liquids, oils and greases from hands, table tops, kitchen utensils, machinery, parts and equipment. Very economical and excellent substitute for wiping cloth and rags. Available in industrial and handtowel rolls, wipers, medical rolls and toilet rolls.

APPLICATION

- ⇒ Hotels, restaurants, caterers, hospitals, laboratories where hygiene is of vital importance. For these industries, the centrefeed rolls are highly recommended.
- ⇒ Manufacturing, automotive, garages, food processing, petrochemical, refineries, etc.

SPECIFICATIONS

Scana	Description	Measurement	Approx wt. per roll/case	Packing
12610	Multipurpose Industrial Roll, Plain, 1 Ply, Perforated	26cm x 1000m Perforation: 35cm	5.4 kg	2 rolls
12032	Centrefeed Midi Roll, Plain, 1 Ply, Perforated	20cm x 300m Perforation: 30cm	1.40 kg	6 rolls
12025	Centrefeed Midi Roll, Embossed, 1 Ply, Perforated	20cm x 250m Perforation: 37cm	1.10 kg	6 rolls
12235	Centrefeed Midi Roll, Embossed, 1 Ply, Perforated	22cm x 300m Perforation: 35cm	1.24 kg	6 rolls
12112	Centrefeed Mini Roll, Plain, 1 Ply, Perforated	20cm x 120m Perforation: 30cm	0.60 kg	12 rolls
12331	C-Fold Handtowel, 1 Ply, Embossed	23cm x 31cm	9.5 kg/ case	20 pkts x 180's
12422	M-Fold Handtowel 1 Ply, Embossed	24cm x 22cm	9.00 kg/ case	20 pkts x 200's
21020	Jumbo Toilet Roll 2 Ply, Plain	10cm x 200m Perforation: 23cm	7.2 kg/ case	12 rolls
15044	Medical Roll 1 Ply, Embossed	44cm x 150m Perforation: 38cm	2.80 kg	6 rolls
15052	Medical Roll 1 Ply, Embossed	52cm x 150m Perforation: 38cm	3.30 kg	6 rolls
15059	Medical Roll 1 Ply, Embossed	59cm x 150m Perforation: 38cm	3.80 kg	6 rolls
2550	Medical Roll 2 Ply, Embossed	50cm x 50m Perforation: 38cm	1.15 kg	9 rolls
2680	Medical Roll 2 Ply, Embossed	60cm x 80m Perforation: 38cm	2.05 kg	6 rolls

B) Puraplus - Industrial Rolls

These wiping paper tissues are manufactured from 100% pure cellulose, which possess excellent wet strength, high absorption rate, low-lint and softness. They are highly resistant to solvents, oils or greases and with its softness will not scratch any hard surfaces. Suitable for use to clean and remove inks, paints, solvents, chemicals, oils and greases from hands, machinery, parts, rollers, printers, equipment, etc.

APPLICATION

Marine, electronics, manufacturing, automotive assembly plants, chemical, printing, aeronautic, hospitals and oil and gas industries.

SPECIFICATIONS

Scana	Description	Measurement	Approx wt. per roll/case	Packing
22655	Puraplus Wiper 2 Ply, Plain	26cm x 555m Perforation: 35cm	5.00 kg	2 rolls
22656	Puraplus Wiper 2 Ply, Plain	26cm x 350m Perforation: 35cm	3.60 kg	2 rolls
22825	Multisoft Wiper 2 Ply, Plain	28cm x 250m Perforation: 37cm	3.40 kg	2 rolls
11795	Multisoft Wiper 2 Ply, Plain	32cm x 285m Perforation: 35cm	3.35 kg	2 rolls
11492	Multisoft Wiper 2 Ply, Plain	29cm x 285m Perforation: 35cm	3.00 kg	2 rolls
11490	Mutlisoft Wiper 4 Ply, Plain	36cm x 360m Perforation: 36cm	8.00 kg	1 roll
22637	Multiclean Wiper 2 Ply, Embossed	26cm x 330m Perforation: 30cm	3.00 kg	2 rolls
22437	Multiclean Wiper 2 Ply, Embossed	26cm x 200m Perforation: 26cm	1.50 kg	2 rolls
114	Industrial Roll 2 Ply, Embossed	24cm x 428m Perforation: 28cm	3.70 kg	2 rolls
22219	Centrefeed Handtowel 2 Ply, Embossed	21cm x 135m Perforation: 30cm	1.00 kg	6 rolls
22216	Easycut HRT 2 Ply, Embossed	21cm x 150m	1.35 kg	6 rolls
22366	Maxi Kitchen Roll 2 Ply, Embossed	23cm x 66m Perforation: 23cm	0.50 kg	12 rolls
22316	Mega Kitchen Roll 2 Ply, Embossed	23cm x 160m Perforation: 23cm	1.40 kg	3 rolls

C) Puratex – Mixed and Recycled Industrial Rolls

These paper roll tissues are manufactured from specially selected high quality mixed and recycled paper materials. The 2 and 3 Ply are soft and feature the latest micro-embossing, which improves their high absorbency and tear resistance, and are recommended where paper consumption is high.

These paper tissues are economical and well-suited for wiping off thick oil and greases as well as liquids. Depending on requirements, the 2 Ply is suitable as a general-purpose wiper and the 3 Ply is more suitable for heavy-duty or exceptionally harsh conditions. The 1 Ply recycled is a low cost general purpose light to medium wipe and where usage is of high consumption.

APPLICATION

Engineering workshops, manufacturing, automotive assembly plants, hospitals, refineries, power plants, etc.

SPECIFICATION

Scana	Description	Measurement	Approx wt. per roll/case	Packing
33838ER	Puratex Oilplus Blue, 3 Ply, Embossed and Perforated	36cm x 360m Perforation: 36cm	7.50 kg	1 roll
22455	Puratex Oilplus Blue, 2 Ply, Embossed and Perforated	26cm x 190m Perforation: 29cm	3.70 kg	2 rolls
12490ER	Multipurpose Roll 1 Ply, Plain and Non-Perforated	24cm x 1000m	5.20 kg	2 rolls
