

AF 112 - ANTI-FREEZE COMPOUND

GENERAL DESCRIPTION

Norchem AF 112 is an effective and heavy-duty Nitrite Free antifreeze + coolant intended for use and compatible with any heavy and light duty diesel or gas engines. It is compatible with all vehicles, coolant colors and any Nitrite Free OAT engine. It eliminates the need to add supplemental coolant additives. The Nitrite Free formula provides excellent protection for aluminum and all other engine metals and protects against liner pitting and corrosion protections.

TYPICAL APPLICATION

AF 112 is mainly used to lower freezing point of water in refrigeration units, radiators and other cooling systems. AF 112 is also highly recommended as an excellent coolant.

PRODUCT SPECIFICATIONS

Appearance	: Syrupy Liquid
Colour	: Yellow liquid
pH at 50% vol%	: 8.2-8.8
Freezing Point at 50vol%	: -34 °F (-37 °C)
Boiling Point at 50vol%	: +226 °F (+180 °C)
Odour	: Characteristic
Specific Gravity	: 1.115

HANDLING PRECAUTIONS

Avoid contact with liquid. If splashes onto skin or into eyes, flush with copious amount of water and seek prompt medical attention.

PACKAGE

Supplied in 25 or 200 ltrs container
